Honorable Vernon A. Walters
Acting Director
Central Intelligence Agency
Washington, D.C. 20505

Dear General Walters:

It is my pleasure to announce the forthcoming 28th Annual Federal Safety Conference to be held on October 29 and 30, 1973, under the auspices of the Federal Safety Advisory Council. A copy of the preliminary agenda is enclosed. This conference establishes a common meeting ground for Federal safety and health representatives to collectively discuss new developments and approaches for a coordinated effort in the Federal Government's occupational safety and health program.

Until 1972, the conference served primarily to bring together individuals responsible for the management of their agency's safety program. However, last year the program was broadened to involve the safety and health representatives from all levels of the Federal service. The multilevel involvement is essential to successfully meet the requirements of Section 19 of the Occupational Safety and Health Act of 1970 and Executive Order 11612.

I would appreciate your authorizing those individuals responsible for administering your agency's safety and health programs to attend the conference. In addition, I would also recommend that you authorize the attendance of chairmen of field Federal safety councils employed by your agency, safety representatives of labor organizations, and others directly involved in safety and health activities.

Your cooperation in making the conference a success and your support of the Federal safety and health program is greatly needed. I am confident I can count on that cooperation.

Sincerely,

Secretary of Labor
